The European association INEDITS amateur films – Memory of Europe

is an association created in 1991, in application of the European INEDITS charter adopted at the end of the Spa (Belgium) conference in 1989, to encourage the collection, conservation, study and development of amateur films, also called unpublished films. Today, it gathers associations, institutions, researchers, audiovisual professionals or individuals and is made up of about sixty members from several European countries (France, Great Britain, Greece, Italy, Netherlands, Luxembourg, Switzerland, Czech Republic, Monaco, Austria, Spain).

Its members meet every year during professional meetings to exchange on their practices of professionals, academics or witnesses, practical workshops and round tables and to discover productions conceived from this filmic heritage, around a common theme, entitled this year : Towards new perspectives.

The 32nd European Meeting of INEDITS is organized by the Cinémathèque de Saint-Étienne, from November 8 to 10, 2022 in the framework of the centenary of the first regional Cinémathèque created in France. This anniversary coincides with that of the 9.5 format invented by Charles Pathé in 1922, which will be particularly honored during these meetings.

Professionnal workshop at La Comète

Workshop 1

« The place of dance into amateur cinema » speakers : Adeline Lefèvre, choreographer and teacher, responsible for the actions with the public, production manager, DAN.CIN.LAB

Workshop 2

« What use of sports archives filmed by spectators, ZEF a life of struggle » speakers : La Casquette production and Florian Poulin, plastician artist and director

Workshop 3

« Centenary of the 9.5mm : techniques of physico-chemical restoration of 9.5mm film and preventive conservation measures » speaker : Laure Sainte-Rose, film and audiovisual heritage restorer, director of the cinematographic workshop Ad libitum

Workshop 6

« Centenary of the 9.5mm : materials exhibition and selection » speaker : Anne Gourdet-Marès, head of the collection of cinematographic equipment of the Jérôme Seydoux-Pathé Foundation

Towards new perspectives

At a time when the amateur film archive is reaching the screens of commercial cinemas as a subject in its own right, when university research is legitimizing amateur cinema(s) as a scientific object, many « alternative » spaces for artistic creation and distribution are developing. The Cinémathèque of Saint-Étienne proposes to question the new ways of looking at this object of popular culture that is amateur film. And reciprocally, the theme « Towards new perspectives », proposed for these 32nd INEDITS meetings, wants to question the new historical, social and political insights that this particular cinema (of) our history brings.
