Call for films from Association Members

The session on "Film from Members" will take place on Wednesday 23rd of October at 19h00 on the theme of *Il cinema come gioco // Playing with cinema*.

Playing with the camera isn't for everyone, but being young helps you to film while having fun!

Children and teenagers who take possession of the family's cinematic equipment, partly as a joke, partly as a challenge, seem ready to break the narrative conventions, perhaps drawing inspiration from theatrical cinema but with the light-heartedness of those who are resistant to impositions, rules and to the grammar proposed in the "know-how" manuals.

First experiences that sometimes become a collective laboratory, where those who are not behind the camera are in front of it, acting or helping with the film's production.

Let's look for these gems in the archive, select them and propose them: **one** or at most **two films between 3' and 4'**. It will be wonderful!

Please send us your logo and fill in the film inscription forms so that we can prepare the title card of the chosen film:
